

Powerful and reliable!

Shredding electronic data media
with the hard drive shredder
HSM Powerline HDS 230.

HSM Powerline hard drive shredders

Beware when disposing of digital storage media! Huge amounts of confidential information is stored on our computers, USB sticks, magnetic tapes, CDs, DVDs and Blu-ray discs, credit cards and loyalty cards as well as disks. But what happens to these storage devices when they are no longer required? The solution is mechanical destruction! The HSM Powerline hard drive shredders shred digital and magnetic media into tiny particles, making recovery practically impossible. Safe and efficient to use, data protection compliant.

Specially hardened solid steel cutting rollers

Its induction-hardened solid steel cutting rollers are low on wear, resistant and guarantee long service life.

Discharge conveyor belt

The shredded material is carried out by a conveyor belt and can be collected in any standard container.

Energy-efficient IE3 motors

The powerful motors with chain drive are low on wear, resistant and guarantee long service life. They guarantee reliable operation with maximum throughput – even during continuous operation.

Low maintenance and service-friendly

The sophisticated design allows repairs and maintenance to be made easily.

HSM Powerline HDS 150 hard drive shredder

The hard drive shredder HSM Powerline HDS 150 destroys digital media devices in a safe and economical way – and is data protection compliant as well.

- High quality materials and "Made in Germany" quality for safety and durability.
- Cutting rollers made of hardened solid steel.
- Hard drive shredder with 230 V power supply in a compact and modern design.
- Very suitable for the decentralised destruction of a smaller quantity of data media.
- Powerful, energy-saving power unit enables long operation at a low noise level.
- Low maintenance due to closed direct drive unit.
- An automatic return eliminates material jams.
- Data media can be processed at a convenient working height.
- Different functional modes for the various types of material and maximum throughput.
- Removable waste container for effortless emptying.
- Multifunction element for intuitive operation.
- Mobile on castors.

Product number	Cutting size in mm	Device type	Cutting capacity	Security level DIN 66399	Shredder material	Weight in kg
1772	40 mm	single-stage	1 hard drive per cycle, up to 210 items / h	T-1 / E-2 / H-3		667

Dimensions (WxDxH): 1200 x 825 x 1300 mm, colour: light grey/anthracite

HSM Powerline HDS 230 (single stage) hard drive shredder

Secure, data policy compliant and economical. This hard drive shredder shreds digital data carriers into little particles and makes data re-creation virtually impossible.

- High quality materials and "Made in Germany" quality for safety and durability.
- Cutting rollers made of hardened solid steel.
- Discharge conveyor belt for transporting material into a separate container.
- Powerful motor allows for continuous operation.
- An automatic return eliminates material jams.
- User safety through emergency off switch.
- Multifunction element for intuitive operation.
- Practical storage table for data carriers.
- Mobile on castors.
